

McLauchlin Wellness Clinic expands to serve the community

Dr. Murray McLauchlin has been in business since 1963 when he first started working out of his home at 195 Talbot Street.

He was joined by his son Dr. Michael McLauchlin several years ago. Last week, the two local chiropractors announced that the McLauchlin Wellness Clinic will be expanding.

The last expansion at the local office was in 1988, when a 5,000

square foot addition at the back of the original Talbot street location was constructed.

The local clinic then started to diversify in 2000, allowing the office to create a team approach to health care.

The front facade was completed 5 years ago, and the upper level was converted to an exercise and yoga studio. Also in the near future, additional parking will be created on site to

ensure ample parking for patient access.

The McLauchlin's recognized that "It is very difficult to recruit and retain health care professionals anywhere west of London. The local McLauchlin Wellness Clinic has grown to 19 different health professionals, and 4 support staff."

Michael added "This is fantastic for our region - to ensure our community is well serv-

iced as the professionals at our office are essential health care providers."

The local business provides chiropractic care, acupuncture, physiotherapy, foot specialist, audiologist, nature pathic medicine, registered massage therapist, holistic nutritionist, kinesiology and aqua therapy, grief counseling, yoga classes, TRX exercise classes, compression garments, bracing and mastectomy products and skin care.

The new expansion that is now underway, will increase the size of the physiotherapy room with an additional 640 square feet on the main floor for a total of 1,000 square feet for the services provided by Talbot Trail Physiotherapy.

The basement will be developed into a skin care clinic providing microdermabrasion treatments, facials, laser hair removal along with many similar services.

In total the addition will be 1,200 square feet creating a total of 6,500 square feet of treatment space.

There will also be a cement ramp to ensure the clinic is fully accessible to everyone in the community.

The world of delivering health care has changed to a team approach which has been created at our office.

Both Michael and Murray acknowledged,

"It is a goal at McLauchlin Wellness Clinic, to keep our local area well serviced with their health care needs to create a destiny location for our community and surrounding area."

The project is expected to be completed later this summer.

OPEN HOUSE

Best Wishes Only.
Come and celebrate
Miss Kate's
2nd Birthday
If you know her.
May 28th - 2-4 pm
33 Church St.,
Blenheim
Cake & Ice Cream!

Dr. Murray and Dr. Michael McLauchlin view plans for a new expansion to the rear of the McLauchlin Wellness Clinic. Work on the new building has begun, which will see a 1,200 square foot expansion. It will allow for a total of 6,500 square feet of treatment space. The local practice was first started by Murray back in 1963. Completion is expected later this summer.
